Power Piece: MCM Bag

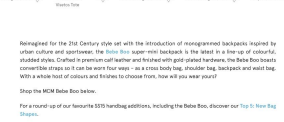

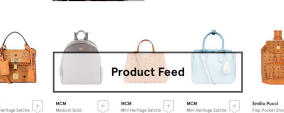

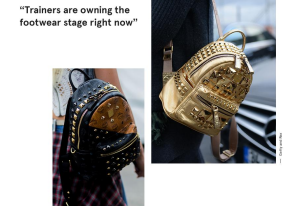

Words by Sam Smith

Synonymous with the now iconic checked backpacks that brought sportswear back to the mainstream, the MCM brand has a rich and distinctive heritage beyond its street style-worthy backpack collection.

Founded in 1956 in Munich, Germany, MCM debuted its signature Crocodile pattern monogram printed across leather trunks and hand luggage. It wasn't long before the brand expanded to the high-end market, with MCM bags and shoes. It was then that MCM's iconic Crocodile pattern monogram was introduced to the world.

Today, MCM's iconic Crocodile pattern monogram is still a key part of the brand's identity. The brand's iconic Crocodile pattern monogram is still a key part of the brand's identity. The brand's iconic Crocodile pattern monogram is still a key part of the brand's identity.

Not worn by just anyone, the It bag has been spotted on the arms of Olivia Palermo, Narsin Sewell, Poppy Delevingne and Blake Lively, no less. Unwearing in its popularity, Drew's fame is reminiscent of that of Chloé's Paddington (launched in 2002), the unassuming success story that was borne out of a small collection of leather goods that shot the Parisian fashion house into the stratosphere.

Now in the new Nano size, the Chic4 Drew is available in array of colours and finishes - each iteration designed to make the wearer look effortlessly stylish.

With its cult following and regular red carpet outings, who knew that these tiny pyramid studs stepping onto the Valentino Fall 2000 runway on *caped slingback pumps* would go on to achieve such cult status many seasons on. Adorned by A-listers and the divy scribe, the staying power of the Rockstud pump has to its versatility – it is quite simply the go-with-any-outfit shoe, ingeniously reimaged each season in tempting array of colourways, heel heights and textures, when it comes to tapping the shoe chart, it's Rockstud rules.

And of course, these spunky studs aren't just exclusive to the pump. The Rockstud has become a complete footwear family, scattered across sandals, espadrilles, pointy-toe flats, biker boots and even flip-flops. It

Pink Edit

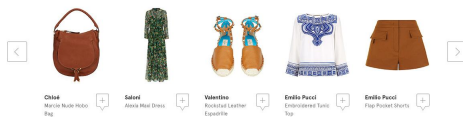

Words By Tara Gardner

A packed schedule at New York saw things get off to a bohemian start at BCBG Max Azria as laid-back silhouettes on turtleneck ponchos and tunics were served with lacing and patchwork detailing, while adding an evening edge to proceedings, for AW15, Monique Lhuillier moved away from her fairytale ballgowns and journeyed into the realm of the sleeker, more sultry heroine with shimmering jewel coloured silk form-fitted dresses with a 1920s' vibe.
